

## KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

**Raiffeisen fond alternativní, otevřený podílový fond, Raiffeisen investiční společnost a.s.** (hereinafter the “Fund”)

Class A1 - Privátní	Class A2 - Kapitalizační
ISIN: CZ0008474368	ISIN: CZ0008474954

The Fund represents a special collective investment fund.

The Investment Company that manages the Fund (the Management Company): Raiffeisen investiční společnost a.s.,  
Registered Number: 29146739 (hereinafter also the “Company”).

### OBJECTIVES AND INVESTMENT POLICY

The characteristics of the Fund are that of a mixed investment fund. The Fund invests primarily in some selected segments of the equity markets (e.g., in real estate equity), in commodities, foreign currencies, and/or other instruments whose prices usually fluctuate with lower impact from the development of the main equity indices or bond indices (so-called “Alternative investments”). The Fund may invest in derivatives and it may also apply such derivatives for hedging purposes. Any underlying assets relating to such derivatives may be considered as ‘alternative investments’; it may also appreciate the entrusted funds by way of bank deposits and by investing in bonds.

Such share of “Alternative investments” in the Fund assets will be actively managed; it may form up to 100-percent of the Fund assets in the event of a neutral assessment of the market trends by the Investment Company, and such “Alternative investments” may be completely sold out from

the Fund assets if the Investment Company has an extremely negative view of the market trends. Other funds’ units may form up to 100-percent of the Fund assets.

The Fund does not concentrate on any specific industrial branch, sector or region. The performance of the Fund is measured in CZK. The Fund is a capitalisation fund. The Fund does not intend to copy or follow any specific index or benchmark. More detailed information is available in Chapter 8 of the Fund Prospectus.

Fund units are issued and redeemed usually on each business day for the current value set in accordance with the Fund Prospectus. Further information about unit issues and redemption is specified in Chapter 13 of the Fund Prospectus.

Recommendation: The fund may not be suitable for investors planning to recover their invested pecuniary funds within a term shorter than ten years.

### RISK AND REWARD PROFILE

← Potentially lower reward				Potentially higher reward →		
← Lower risk				Higher risk →		
1	2	3	4	5	6	7

The Synthetic Indicator 1 to 7 takes into account the fluctuation of the value of the units and shows the potential reward of investments in relation to the degree of risks inherent in the Fund. The higher the number, the higher the potential reward but the less foreseeable the reward, and investors could therefore suffer a loss. However, even the lowest number does not mean that an investment is entirely free of any risk; it rather indicates that in comparison to higher numbers the investment offers a lower but more foreseeable reward.

The indicator value was determined based on historical information, which is not always a reliable guide when it

comes to the future risk profile of the Fund. The risk and reward indicator is regularly re-assessed and its value can fluctuate up and down.

A typical investor should be aware of the risks associated with investments in bonds, money market instruments and other instruments bearing the risk of bonds (including but not limited to credit, interest, foreign-exchange and concentration risk) and should be prepared to accept the risk of possible loss resulting from the investment.

The value of investments can rise and fall. No return on such investments is guaranteed. More detailed information is available in Chapter 9 of the Fund Prospectus.

### CHARGES

One-off charges taken before or after you invest	Class A1	Class A2
<b>Entry charge</b> (a surcharge paid by investors from invested amounts)	up to <b>1,5 %</b>	up to <b>2 %</b>
<b>Exit charge</b> (a deduction from redeemed amounts)	<b>0 %</b>	<b>0 %</b>
This is the maximum amount that might be taken out of investors’ money before it is invested or before the proceeds of such investments are paid out. In some cases the charge can be lower or zero. Details about the current amounts of entry and exit charges can be obtained from your financial advisor or distributor, or at <a href="http://www.rfis.cz">www.rfis.cz</a> .		

**Charges taken from the fund over a year**
**Ongoing charge**

The ongoing charge covers charges and other payments taken from the Fund assets in respect of the previous financial year ending 31 December 2016 (such costs are reflected in the performance of the relevant investment; they are not charged directly to investors). These figures may vary from year to year.

\* The information covers the period commencing upon the establishment of the Class, i.e., from 1 September 2016 until 31 December 2016.

**Charges taken from the Fund under special conditions**

(the costs reflect in the performance of the relevant investment, they are not billed directly to investors)

**Performance charge**
**up to 20 % of profit**

A performance fee in the amount of 20 percent of profit/loss was charged in respect of Class A1 determined as of 31 December 2016 in respect of the previous financial year.

The aforementioned charges and costs are used, inter alia, to cover the costs of the operation of the Fund, including any costs of public offerings and promotions, and they reduce potential investment growths. Further information about such charges and costs can be found in Chapter 14 of the Fund Prospectus.

**HISTORICAL PERFORMANCE**

The determination of historical performance is based on the Fund net asset value and on the assumption that all Fund yields will have been re-invested. Any information on the historical performance of the Fund does not serve as an indicator of future performance. The determination of the Fund historical performance incorporates all and any fees and costs paid from the Fund assets, with the exception of any potential entry and exit fees (surcharges and deductions) related to the issuance and redemption of the Fund Units. The Fund has existed since 2014. The Fund performance is measured in CZK. More detailed information is available in Chapter 10 of the Fund Prospectus.

In view of the date of the establishment of the Class A2, no sufficient data are currently available (i.e., at least in respect of one calendar year) that could provide investors with a useful picture of the performance of the Fund so far. Due to this reason the present chart does not contain any information about the historical performance of the Fund.

**PRACTICAL INFORMATION**
**Fund depositary:**

UniCredit Bank Czech Republic and Slovakia, a.s.
